

# Chopsticks

Chopsticks? What can they do, you ask? Well actually they can do quite a lot. Particularly if you use metal ones. And especially if you have nothing else to hand. Be prepared to make use of any article to defend yourself if the need ever were to arise. Be prepared! In or Out of your Bedroom.

I did a search on <metal chopsticks> and came up with these:

Their use is obvious.

Don't reveal them to him.

Grip tight.

Stab hard!

**Buttress the end with your thumb or against the base of your hand to support your drive.**

Mine came as a set of four packaged in a convenient wooden box.

Aesthetically and functionally satisfying!

**Potentially lethal!**
